NEW ORDINANCE FORBIDS SALE OF GUNS

SALE OF ALL KINDS OF GUNS TO
BE MISDEMEANOR BY TERMS OF
NEW ORDINANCE; WOOD GAR-
AGES COME IN FOR DISCUSSION

It will soon be a misdemeanor to sell firearms in South San Francisco. A new ordinance to that effect was given its first reading at the meeting of the city trustees Monday night. And not only firearms are taboo, but air-guns, the delight of the small boy's heart, are included within the restrictions imposed, the ordinance reading "... any gun, rifle, revolver, pistol, or other firearm, or any airgun, or any instrument of any kind or character which throws or projects bullets or missiles of any kind to any distance by means of the elastic force of air or by means of any explosive substance." Those who may buy any of the guns or instruments named are only "such person, persons, firm or corporation as shall have first received a written permit from the city marshal to purchase same."

The ordinance provides that the sale of any of the weapons included within its provisions shall be a misdemeanor punishable by a fine not to exceed \$100 or imprisonment of not over thirty days. The new measure will go into effect thirty days after its second reading and adoption. On the question of whether the pistols now on "punch boards" in various stores and pool-rooms about town would come under the ban, City Attorney Coleberd gave an opinion that they would. The ordinance was drawn at the suggestion of City Marshal Conrad, who brought to the attention of the board that nearly every city around the bay now has such an ordinance in effect. As an indication of the importance of having airguns included, the case of the recent breaking of nearly 200 windows at the Enterprise foundry by small boys armed with airguns, was cited.

The new curfew ordinance, which was given its first reading at the last meeting of the board, was not given its second reading Monday night, being laid over till next Tuesday night.

MISS MABEL WHITTEN

Possessing a pleasing personality, popular and a hustler, she is making rapid strides toward the top of the list. Miss Whitten is being ably assisted in the race by her mother, who is an enthusiastic campaigner, and her many friends hope to see her win the prize automobile, to be awarded July 24th.

Words That Made Men Free IN CONGRESS. JULY 4, 1776.

The unanimous Declaration of the thirteen united States of America.

When in the course of human events, it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume among the powers of the earth, the separate and equal station to which the laws of nature and of nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.

We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness. That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed. That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such Principles, and organizing its Powers in such Form, as to them shall seem most likely to effect their Safety and Happiness. Prudence, indeed, will dictate that Governments long established should not be changed for light and transient causes; and accordingly all experience hath shewn, that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed. But when a long train of abuses and usurpations, pursuing invariably the same Object, evinces a design to reduce them to absolute Tyranny, it is their Right, it is their Duty, to throw off such Government, and to provide new Guards for their future Security. Such has been the patient Sufferance of these Colonies, and such has been the necessity which compels them to alter their former Systems of Government. The history of the present King of Great Britain is a history of repeated injuries and usurpations, all having in direct or indirect purpose the establishment of an absolute Tyranny over these States. To prove this, let Facts be proved.

He has refused his Assent to Laws, the most wholesome and necessary for the public Good. He has forbidden his Governors to pass Acts of immediate and necessary Relief, unless on their Oath to support the Claims of the British Crown. He has refused to assent to Acts of immediate and necessary Relief, unless on their Oath to support the Claims of the British Crown. RECRUITING OFFICE VISITS

SOUTH SAN FRANCISCO

A portable army recruiting office arrived in South San Francisco Tuesday morning and stationed itself at the corner of Linden and Grand avenues. The office, mounted on an army truck, has a complete wireless outfit on board, the party consisting of a wireless operator, Sergeant W. C. Anderson of the Eleventh Cavalry, and one corporal. Sergeant Anderson is the officer in charge.

The office is recruiting for all branches of the service. The men in their trim uniforms and the office decorated with large flags have attracted much attention.

Sergeant Anderson reports his orders are to remain in South San Francisco until Saturday.

W. S. TAYLOR'S CAR WRECKED

IN COLLISION WITH TRUCK

The Ford automobile belonging to W. S. Taylor of Miller avenue was nearly demolished in a collision with a light truck from the Schaw-Batcher shipyard Wednesday morning at the corner of Lux and Linden avenues. Mr. Taylor, who was driving, was uninjured. The truck, driven by two men from the ship plant, suffered only slight damage, and the men, whose names were not secured, escaped unhurt.

The accident happened when Mr. Taylor, driving west on Lux, met the truck traveling north on Linden. A large signboard at the southeast corner prevented the driver of either car from seeing the other machine until close upon it.

AUTO BANDITS STAGE HOLD-UP ON BAYSHORE

Eight Men in Automobiles Rob Motor
Parties in Hills; Believed Much
Booty Was Secured.

The hills between South San Francisco and Visitacion Valley were the scene of a regular old-time hold-up Thursday night about 11 o'clock, when eight men operating in an automobile stopped and robbed at least a half dozen motor parties. Just the amount of booty the bandits secured is not known, but from Eldridge Buckingham of 2901 Pacific avenue, San Francisco, they took \$100 in currency. It is believed they secured considerable amounts of money and many pieces of jewelry from others.

The bandits lay in wait for their victims in a curve where the Bay Shore highway winds around the hill just south of Visitacion Valley. Here the motorists were stopped as they arrived and line up at the side of the road. Several of the robbers held them quiet at the point of guns, while others went through their pockets. When they had secured all the booty to be had the bandits permitted their victims to go, amusing themselves as the fleeing ones departed by shooting at their tires and gasoline tanks.

When the first of those robbed arrived in South San Francisco, Night-watchman McGraw was notified, and in company with City Marshal Conrad, Constable James Wallace, Pete McCormick, Jack Schrine, and Tom Kay left for the scene of the hold-up.

SATURDAY EV'G MARKS END OF 1ST PERIOD

SUBSCRIPTIONS AND ADV. CARDS
RECEIVED BEFORE 8 O'CLOCK
SATURDAY NIGHT HAVE HIGH-
EST VOTES; TIME NOW LIMITED

Saturday night, July 3d, at 8 o'clock sharp—not one minute later—marks the close of the "first period" in The Enterprise-Progress big automobile prize contest.

After this time, and for the next two weeks, the "second period" schedule of votes will be in effect, which means a material reduction in the voting power of all subscriptions and Adv. card orders, while the third and last "period—the last week—will see the scale of votes cut practically in half.

Leading candidates are seething with the bustle of preparation for one grand "round up" of all their friends and acquaintances in quest of the winning votes before this Saturday night; and, with one accord, are fighting valiantly and determinedly toward the goal—where the big prize "Baby Grand" Chevrolet touring car awaits. Intense though suppressed excitement prevails among the various candidates, as each realizes that she is within reach of a prize worth \$1500—a small fortune, indeed—all to be won or lost during the next few days, for that is exactly what it means, depending almost entirely upon the number of subscriptions and Adv. card orders turned in before 8 o'clock Saturday night, and each have entered the final lap of the "first period" with the grim determination to win or know the reason why.

A "Neck and Neck" Race

With a grand total of 940,350 votes to her credit, Mrs. Mary Di Vita of South San Francisco takes her place at the head of the list, having exchanged places with Miss Viola Hein as handily as did she usurp the coveted first place from Miss Ver Linden of Colma last week, thereby acquiring leadership for first honors and the prize "Baby Grand" Chevrolet.

Standing firmly behind today's leader, and so close that a mere handful of subscriptions or Adv. card orders separate them from first place,

(Continued on Page 6.)

MRS. MARY DI VITA
South San Francisco

She makes the firm and solemn declaration that she proposes to annex that prize "Baby Grand" Chevrolet automobile, worth \$1500, for her very own, and gives fair warning to "all comers" that she has picked out "work without rest" for her portion from now on until the finish. It will pay to keep your eyes on Mrs. Di Vita!

NEW ORDINANCE.

(Continued from page 1.)

Mrs. J. Jeffrich appeared before the board in support of her written application for a permit to build a garage at her residence, 329 Grand avenue. As the proposed garage was within the "fire limits" of the town, inside of which all buildings are supposed to be fireproof, the application raised a lengthy discussion. The fact was brought out that several wooden garages within these limits have been built without a permit during the time the city's fire ordinance has been in force. From the tenor of the discussion that was brought out it appears there is a possibility that the owners of such garages may be forced to tear them down and rebuild fireproof structures if they desire housing places for their autos. This is because of the city officials' determination to secure lower insurance rates after the installation of the new fire alarm system this summer. Action on Mrs. Jeffrich's application was deferred until next Tuesday evening because of the absence of two trustees Monday night.

Mrs. Mary Di Vita appeared before the board and asked that the city purchase from her two advertising and job printing cards, good for \$10 each, in The Enterprise-North End Progress

big free automobile contest. Mrs. Di Vita's request was granted, and Mayor Holston stated that he would have been glad to have the city buy more than two of the cards if it were not for the restrictions of two cards to a

purchaser imposed by rules of the contest for the protection of the candidates.

The next meeting of the board will be held Tuesday night of next week, Monday being a holiday.

NEW COLMA BANK TO OPEN ON JULY 6

The new Colma State Bank, the concrete structure for which is now finished, will open for business July 6th. It has been announced that all savings deposits made on or before July 15th will draw interest from July 1st. The new bank is a noteworthy addition to the business life of Colma. Its handsome concrete building attracts much attention from passers on the highway, standing as it does on a commanding site in the center of town.

REDWOOD PAPER RAISES SUBSCRIPTION PRICE

The Redwood City Standard has announced that, beginning with July 1st, its subscription price will be \$3 a year. It explains the raise in price by quoting the price of news print, now four times its pre-war price, as well as the high price of other things used in publishing a newspaper. There is little indication that the old

price of \$2 a year for the "home-town weekly" will ever return. No paper worth the name can be published to-day at \$2.

How Many Homes Have You Paid For?

And how many homes do you own today? Recently a man came into our office that had decided years ago to apply his rent money toward the payment of a house. He soon rented the house to another fellow and his rent paid the balance on the house. He bought himself another one and another one, until today he owns several homes and has quit work. The rent money he now collects means a substantial income to him. The future is sure, bright and smiling for his wife and children.

Rent day never comes around to the man who owns his own Home.

A deed to your home is the best form of life insurance you can have.

We will build you a house to order, exactly as you plan it and upon a lot that suits your ideas. A small payment down and your rent money will pay for it. The man who owns his own home not only saves rent but makes money on the increased value in his property.

TOO TAME FOR PERSHING.

Since General Pershing returned from the World War he has been putting in his time looking over the war plants used in industry, and in suffering the agonies incident to being a social lion in Washington. General Pershing has found most of these institutions that were built in "a few days and nights" in order to make winning the war simpler, in a state of collapse. In many instances most of the workmen were gone and the only thing left at the plants were interested promoters who provided banquets and sought to impress General Pershing with the thought that the government should run these institutions at a loss in the interests of "preparedness"—not to mention the interests of all the promoters who discovered methods for buying silk shirts and Pierce-Arrows during those intoxicating days when Uncle Sam was paying all the bills and asking few questions. This "exciting task" for General Pershing has been "accessory" to that other phase in his life, sprinkled with 4 o'clock teas, evenings at bridge with senators' wives and daughters, social aggrandizements, horse shows, and "events" wherein marriageable daughters and fascinating widows passed in review before the world's most eligible general.

Just what General Pershing thought of this aimless career perhaps no one but himself will ever know. Fortunately the American people did not give him a house that he did not want, as was the case with Admiral Dewey. But the spices of the Indians and the samples of American gratitude must look like platters of lemons to a hard-headed man like General Pershing. Apparently he has not spurned these gifts and attentions, but if the truth were actually known, his expressed desire to retire to private life has been influenced by the conviction that the life of a hero is not an easy one, particularly if he must forsake a useful career to serve as the victim for a mercurial populace.

SAVE OLD PAPERS.

What do you do with your newspapers when through reading them? Burn them up? Don't do it. Every sheet is needed for the making of fresh paper stock. In a year's time the salvation of the newspaper business may depend greatly upon the manner in which old papers are saved and returned to the mills.

The scarcity of news print paper is something appalling, and in another year only the Lord knows what will happen.

This news print shortage is due partly to non-production, but much of it is due to the greediness of the publishers of the big city dailies. Instead of confining their Sunday editions to reasonable size they double and treble and quadruple them in an endeavor to outdo each other.

These publishers know the conditions of the print paper market, they know that they are deliberately "murdering" the small city dailies and country weeklies, yet they persist in their course of ungodly selfishness.

The next time you see one of these big Sunday papers just go through it and note what it contains in order to fill up so many pages. Classify the legitimate news and matter of general information as against the slush, rot, drivelt, and sensationalism. You may find that matter containing a permanent value to humanity occupies only a small portion of the space.

Then remember that with their enormous circulations this prodigal waste of paper is daily reducing the available supply of stock in the United States and Canada and rendering it increasingly difficult for the smaller papers to secure stock at any price.

Keep in mind the fact that the publisher of that particular Sunday daily is a veritable and insatiable news print hog, that he is devoid of the American spirit of live and let live, and that he is willing to murder the country press rather than forgo a penny of his profits or reduce the size of his Sunday editions in an honest effort to conserve paper stock.

Just bear in mind the prohibitive price of paper stock and the consequent increase in the subscription rate of your own home town paper is due as much to his hogishness as to any other cause.

There is said to be a certain code of honor even among thieves, but we have yet to hear of such a trait in the hos, either of the four-footed or the news print breed.

Save your old papers. Without conservation disaster is sure to overtake the public press.

With the elimination of Carranza the Mexican government appears eager to win the friendship of the United States, and the introduction of much-needed American capital into that strife-ridden country. There is a way, if the Mexicans care to pursue it. Make American life and American investments as safe south of the Rio Grande as they are north of it, and recompense Americans for the losses they have sustained in the past. When that is done America will believe in the sincerity of Mexico, but until then all protestations of friendship must be taken with a liberal application of salt.

The W. C. T. U. jarred the best portion of the earth when they put old John Barleycorn out of business in the United States, but these estimable, charming and altogether delightful ladies will be doomed to many a jar themselves before they succeed in forcing a system of scientific mating upon the romantic people of this country. You can't make love by resolution any more than you can prevent an old buck from making a d. f. of himself in the presence of a young filly. No, sir! We object, without even first consulting our wife.

The world, we are assured, will become reasonably decent in time. But who of us has hopes of living a thousand years to see the fulfillment of a doubtful prophecy?

SO. S. F. FIRE FIGHTERS
MADE RECORD RUN FRIDAY

The South San Francisco fire department made the run to the fire at the Peninsula Hotel, San Mateo, last Friday evening in the record time of eleven minutes. The local department feel that they did not get proper credit for their efforts, for while all other departments who took part in the big fire received due credit in the accounts published in various papers, no mention was made of the South San Francisco department. As a matter of fact, the members of the local department were the first outside fire-fighters on the ground. They

strung 2000 feet of hose to the Clark estate on the other side of the highway. This line of hose was used by the San Francisco firemen when they arrived. One of the city's big engines was attached to the hose line and this supplied most of the water used.

The local department also put the first ladders on the roof of the building. When the city firemen arrived, Fire Chief Truax of South San Francisco made strenuous efforts to have the fire fought from the roof, as most of the blaze was then at the top of the building. The city firemen insisted on playing their hose from inside the building, however, with the result that little headway was made.

MANY SHORTRIDGE
CLUBS BEING FORMED

The popular demand for the election of Samuel M. Shortridge, Republican candidate for United States Senator, is finding expression in the organization of numerous Shortridge-for-Senator clubs in all parts of the state. Sacramento, Vallejo, cities and towns in Marin and Sonoma counties, most of the assembly districts in San Francisco, every township in Alameda county and several cities of San Mateo county are already on the Shortridge map, and many more clubs are in process of organization.

Women voters are particularly enthusiastic in their support of Shortridge. Shortridge organizations among women voters are ready to complete formation in Sonoma, San Rafael, Bolinas, and other points in Marin and Sonoma counties. Two women's organizations for Shortridge's support have been formed in the thirty-second assembly district alone in San Francisco.

The "hard times" social given at the Y. M. C. A. rooms last Friday night was declared a great success by all attending. One of the largest gatherings of young people that ever assembled at an affair of the kind in South San Francisco was present and spent a jolly evening playing games. Most of those present came in their old clothes in keeping with the spirit of the occasion. Refreshments of "hot dog" sandwiches and coffee were served.

SAN MATEO FIRE CHIEF
DISCHARGED AT MEETINGAccused of Graft and Incompetency,
Geo. A. Bartlett Is Fired.

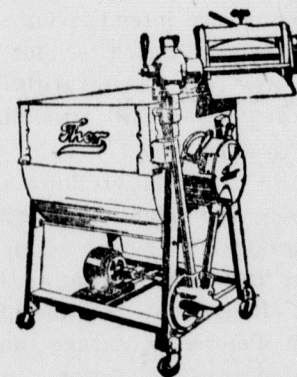

San Mateo has been deeply shaken by the fire that destroyed the beautiful Peninsula Hotel last Friday night with a resulting loss of nearly \$500,000. The meeting of the board of city trustees Monday night resolved itself into an indignation meeting, the theme of which was that if San Mateo had had adequate fire fighting apparatus the great hotel would have escaped with only slight damage by fire. Before the meeting had ended charges of graft and incompetency flew thick and fast, aimed mainly against Fire Chief George A. Bartlett, the upshot of it all being that Bartlett was removed from his position as fire chief and also from the superintendency of streets.

A movement was also launched to secure new and modern fire fighting apparatus for San Mateo at a cost of about \$17,000. Mrs. J. McGinn, newly elected city trustee and fire commissioner of the city, is leading the fight to secure better fire fighting facilities.

P. G. AND E. GIVEN BIG RATE INCREASE

The Pacific Gas and Electric Company was authorized Thursday by the Railroad Commission to increase its rates for electricity by the addition of a 15 per cent emergency surcharge to apply on all bills rendered, beginning with July 10, 1920, and ending with April 10, 1921, a period of nine months. Similar authority was also granted the Great Western Power Company. The commission's decision adds to the standard rate schedules of both companies the surcharges that have been allowed on previous applications, the emergency percentage increase granted Thursday being imposed on the combined rates. The effect will be a 15 per cent increase over the amounts that have been collected in recent months. In the case of the Pacific Gas and Electric Company it is estimated that the new emergency rate will produce additional revenue of \$2,200,000 for the year ending July 1, 1921.

Shortage of water power and the consequent necessity for the production of a large quantity of electricity by steam (using fuel oil costing \$1.81 a barrel) and increases in wages are responsible for the surcharge, according to the opinions accompanying the applications for relief filed by both companies. The period of nine months for the collection of the surcharge is fixed by the commission in the belief that by next April sufficient new hydro-electric power will have been installed to considerably reduce the production of expensive steam power.

STATE TO AID THE BLIND.

The State Board of Charities and Corrections is making a survey to determine the number of blind persons in the state. Any one knowing of a person so afflicted will render a service by reporting same to the Social Service Commission, Redwood City. The commission has been asked to cooperate in this matter, so as to carry out a law passed by the last legislature, authorizing aid to be given the blind who are without sufficient means of support.

SAN BRUNO NEWS.

CHAMBER PLANS FOR SOCIAL EVENINGS

The San Bruno Chamber of Commerce held a meeting Thursday night. There was a good attendance. Much of the evening was given up to a discussion of plans for the new municipal market, the Chamber of Commerce having gone on record as favoring this proposition and being willing to do all possible to further it. P. J. Sullivan, delegate from the Chamber at the recent meeting in San Francisco of representatives from commercial organizations of the state to consider the raising of the rates on highway bonds, made his report. Mr. Sullivan stated there were representatives at the convention from all parts of the state, Southern California being especially strong.

The Chamber is planning to hold a series of social evenings in the near future, the idea being to draw the residents of San Bruno closer together and to overcome any possible prejudice toward the organization that may exist.

A large display of San Bruno scenes has been put on exhibition in front of the postoffice. These show many of the fine homes, stores, etc., of the town, and copies will be sold, the proceeds to be used to defray the expenses of the proposed social evenings.

PETITION CIRCULATED.

A petition sent out from the recent meeting in San Francisco of commercial organization representatives of the state is being circulated and is getting many signers. The petition calls for the raising of the rate on highway bonds to not over 6 per cent and is believed necessary that the bonds may be sold and highway work be given a boost.

SO. SAN FRANCISCO TO HAVE BABY SHOW AUG. 2

Show Will Mark Opening of Weekly Conferences for Mothers.

South San Francisco is to have a baby show! There will be fat babies and fatter babies, blue-eyed babies and babies with brown eyes, as well as babies with all shades of eyes between. All babies presented will be examined by local doctors and judged according to established standards that babies should measure to. Prizes will be awarded for the most perfect babies.

The baby show, planned for Monday, August 2d, will mark the opening of weekly conferences for healthy babies at the Public Health Center at 431 Grand avenue. These conferences are planned to give the doctors and nurse an opportunity to advise with mothers as how best to keep their babies healthy. No babies that are ill will be admitted to these conferences, as no risk of exposing healthy youngsters to contagion will be taken.

The school doctor and nurse now have a physical record of all school children of South San Francisco, and it is planned during these conferences to secure a similar record of all children under school age.

Miss Cora Rackel, the public health nurse of the city, will be at the new health center every day next week, beginning Tuesday, to register babies for the baby show. Mrs. Carrie Winterhalter is chairman of the baby show committee.

AUDACISSIMA RAPINA NELLE VICINANZE DI VISITACION

Questa notte verso le ore 11 avvenne un' audacissima rapina sulla San Bruno road nelle vicinanze di Visitacion.

Una banda di otto malviventi con un grosso automobile e armati fino ai denti, fermarono sei a sette automobili. I banditi, con le rivoltelle alla mano, fecero scendere tutti i passeggeri dalle automobili e dopo averli allineati sul fianco della strada li dembararono di tutto quanto avevano indosso.

Ad uno dei malcapitati passanti fu tolto \$100 in contanti ed agli altri considerevoli somme in denaro e molti gioielli.

Appena avute notizie dell'audacia rapina, un gruppo di uomini di So. San Francisco sotto il comando del City Marshal Conrad, del Constable James Wallace e della guardia notturna McGraw si recarono sul posto; ma i banditi come il solito, si erano già dileguati.

San Francisco police were also notified and a posse from the city hurried down from the north. No trace of the bandits was found, however, as they had had time to flee before the officers arrived. The San Francisco police stated they had passed a car with several men on board on the edge of the city, and believe it was the party wanted.

William Dessin of Dessin Bros. garage in Burlingame was one of the victims of the robbery.

NOTIZIE DALLA CONTEA IN ITALIANO.

CAPO POMIERE LICENZIATO PER INCOMPETENZA

George A. Bartlett, che da molti anni fu capo pomiere e soprintendente delle strade di San Mateo, e' stato licenziato per incompetenza nel dirigere i lavori d'estinzione d-incendi.

Questo avvenne durante una delle piu' burascole sedute che la storia di quell' amministrazione registri. Durante detta seduta, la quale ebbe luogo la sera di lunedì ultimo scorso, il Bartlett fu pure tacciato di favoritismo nei lavori di pavimentazione delle strade di San Mateo. Queste rivelazioni vennero alla luce in seguito al disastroso incendio che venerdì sera distrusse completamente il Peninsula Hotel.

LA POPOLAZIONE DI SAN MATEO E' DI 5979

L'ufficio generale del Censimento di Washington ha annunciato che la popolazione di San Mateo e' di 5979 abitanti e che l'aumento avuto durante gli ultimi dieci anni e' stato del 36 e mezzo per cento.

UNA NUOVA ORDINANZA PER LE ARMI DA FUOCO

Alla riunione regolare di lunedì sera dei padri coscritti di So. San Francisco ebbe luogo la prima lettura della nuova ordinanza che proibisce la vendita delle armi da fuoco nei limiti della città. Detta ordinanza include pure i fucili ad aria (air guns) usati dai ragazzi.

La seconda lettura dell'ordinanza

avrà luogo il prossimo martedì sera e 30 giorni dopo della quale andrà in vigore. Nello stesso tempo andrà pure in vigore la nuova legge del coprifuoco che proibisce ai ragazzi al disotto dei 14 anni di età di essere in giro per le strade alla sera tardi o durante la notte.

LE PRODEZZE DEI POMIERI DI SO. SAN FRANCISCO

Il corpo dei pompieri di So. San Francisco rispose prontamente alla chiamata da San Mateo dove venerdì sera il Peninsula Hotel era avvolto dalle fiamme distruttrici.

In undici minuti i nostri bravi pompieri si recarono sul posto del disastroso incendio arrivando nei primi di tutti gli altri corpi che giunsero dal difuori della città. Usarono 2000 piedi di tubo e furono i primi a mettere la scala sul tetto del fabbricato in fiamme.

I nostri bravi pompieri sono dell'opinione che a loro non fu dato il credito dovuto e che nemmeno la stampa nel darne la notizia non abbia accennato la prontezza e l'efficacia loro durante i lavori d'estinzione.

L'APERTURA DELLA NUOVA BANCA DI COLMA

Col giorno 6 luglio la nuova Banca Statale di Colma aprirà le sue porte al pubblico e incomincerà gli affari.

E' stato pure annunciato che tutti i depositi a titolo di risparmio fatti prima del 15 luglio usufruiranno gli interessi incominciando dal 1 luglio.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the Blood on the Mucous Surfaces of the System. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials.

SATURDAY EVENING END OF FIRST PERIOD

(Continued from page 1.)

comes Miss Violet Ver Linden of Colma and Miss Viola Hein of South San Francisco—erstwhile leader. Both of these candidates have made a truly remarkable showing thus far in the race, and the friends of each are more determined than ever that their favorite be declared the victor; and, it might be added here, they are backing up their faith in their candidate with votes, not mere talk.

Just a pace behind, and within easy hailing distance of the first three named, comes Miss Mabel Whitten of South San Francisco, and Miss Evelyn Pettingell of Daly City. This brings the five leading candidates pretty close together, and the race is an interesting one, to say the least.

Speed Will Win

The crucial test is now at hand. If you ever intend doing anything BIG in this race, DO IT NOW. Instead of being in second, third, or fourth place, GET UP AT THE TOP AND STAY THERE. Now is the time to secure an insurmountable reserve vote. Now is the time to "cinch" the prize you most desire.

Remember, never again after this Saturday night will it be possible to secure the full voting power on subscriptions and Adv. card orders. This is final and fair warning. To hold back orders now, or to rely on "promises" at a later date, simply means that you will have to take less votes on such orders.

We are putting it up to you squarely: If you entertain any desire whatever of being declared winner of first honors and the prize Chevrolet, to be awarded just three weeks from tomorrow night, do not fail to turn every available subscription to your account before the close of the "first period."

Not to do so simply means that you will have to redouble your efforts during the remainder of the race to make up for lost ground. A few long-term subscriptions or Adv. card orders NOW may be the very ones needed to "cinch" the big prize; they could hardly help winning one of the major awards.

A Timely Warning

As a timely warning, don't try to figure just exactly how many votes it will take to win, for you will surely fail to get enough. Don't be afraid of having too many votes; you can't have too many. It would be better to win the big prize with a million votes more than enough than to get left by a hundred thousand votes or so, representing the result of an afternoon's work.

Don't let this happen to you. You would never forgive yourself the fatal

error. There will be no cause for regret if you but heed expert advice, and back it up with a goodly number of subscriptions and Adv. orders.

At any rate, Saturday night will, to a considerable extent, tell the story. Your fate is in your own hands. We can help you only by telling you how. You can sweeten it or embitter it yourself. Your own subscription counts.

ECONOMY OF TIME AND LABOR

Strike a match—turn a valve—and the fire is ready. It's so easy that it doesn't seem possible to those who have been used to spending ten to thirty minutes building a fire. Still, it is true, when you use gas, and once you try it, money wouldn't hire you to go back to the old-time plan. Just think of all the time wasted with your fire—preparing the kindling—getting in the fuel—starting it—watching it—and the worry and muss it makes.

A GAS RANGE does away with all this.

It is very plain that it gives you a whole lot of extra time—allows you to sleep longer in the morning and gives you more time through the day for rest, enjoyment and other work.

But that's not all. GAS transforms the kitchen into a clean, inviting place, free from all the things that make dust and dirt.

No ashes, no smoke, no kindlings, no waits, no time lost—these are just a few things that gas fuel eliminates.

JOHN FISCHER BENEFIT.

A grand ball for the benefit of John Fischer is to be given Saturday evening, July 31st, in South San Francisco, under the joint auspices of South City Aerie, No. 1473, F. O. E., Tippecanoe Tribe, No. 111, I. O. R. M., and Progress Camp, No. 425, W. O. W.

John Fischer has been a resident of South San Francisco for many years, and though always receiving but a modest wage, has managed by hard work to meet his obligations. He has always been quick to help those in distress, and now that he is in need, a victim of tuberculosis, we feel it our duty to lend a helping hand. The Fischer boys are keeping "the wolf from the door," so the family is all right, but soon John is to be discharged from a sanitarium and must seek a dry climate, so we have planned this benefit to help him.

We ask fraternal orders and dancing clubs of Daly City and Colma to keep an open date for July 31st, that they may spend the evening with us. We will promise you a pleasant evening; you will be helping to bring back to health and happiness a good husband and father. Help us make this benefit a success and we will gladly help you if the opportunity offers.

"Of Such is the Kingdom of Heaven"

Inside the great brass statue of Moloch a roaring fire was built on holy days.
And into the seething arms of the pitiless god mothers hurled their screaming infants.

In the South Sea Islands, when either parent died, the children were slain and buried also, to wait the parent in the other world.

In China the girl babies were drowned; in Greece they were exposed upon the bleak and bitter mountainsides.

And even Socrates, the greatest of the Greeks, saw nothing in the practise to condemn.

Thus the ancient heathen world treated its babies.

Who was it that changed the world's thought about children? Who made them the most important citizens of the world?

Jesus of Nazareth. It was He who said "Suffer little children to come unto me and forbid them not."

He gave them the proud privilege of being His friends.

In every age His Church has been the champion of childhood. Datus, a Christian Bishop, founded the first orphan asylum. All the laws for the protection of children have their roots and their security in His Church.
